

LICENSED COUNSELOR – MENTAL HEALTH

Phoenix, AZ

We are Mental Health Center of America, a new multi-disciplinary practice helping patients navigate their mental health with an emphasis on treating both the mind and body. We are looking for a licensed counselor to join our team. The ideal candidate will have a strong passion for helping patients and shaping the future of mental health.

What You'll Do

- Through the biopsychosocial lens for patient conceptualization, counselors will provide evidence-based psychotherapy with an emphasis on strengths-based / solution focused care.
- Implementation of patient centered outcomes through the development of peer-support, interpersonal skills, emotional regulation skills, and meaningful activities. Provide support for the patient's strength-based treatment plan, that is designed to meet each individual patient where they are at today, in effort to support a better tomorrow.
- Attend and participate in ongoing education and related training opportunities in a timely manner that supports both licensing and competency requirements.
- Work closely with clinical director to provide psychological services described above.
- Work closely with a team of interdisciplinary mental health providers.
- Patients are primarily 13-60, but you may be asked to see children and adolescents.
- Work within our EHR system in accordance with MHCA's record keeping guidelines.
- Maintain ethical and legal standards as required by provider code of ethics and described in detail in the MHCA employee handbook.

What We are Looking For

- Clear passion for helping patients navigate their mental health
- Ability to work well with others
- Love to learn and innovate
- Support MHCA's patient satisfaction goals as well as division's specific targets.
- Excellent communication and writing skills and a desire to provide direct services to clients.

Must Haves

- Valid and current License in the state of Arizona.
- Ability to work regularly scheduled work hours
- Represent MHCA in the health care community and general public in a professional manner

Helps to Have

- Counseling experience in a multidisciplinary health care setting.
- 2-5 years of experience providing counseling services
- 2 -3 references from current and/or previous supervisors
- Ability to adapt responsibilities in support of the clinical development of a growing multidisciplinary mental health clinic.

Compensation and Benefits

- Competitive Salary (\$65,000 - \$85,000)
- Health/Dental/Vision coverage
- 15 paid vacation days per year
- Supportive wellness policy (sick days)
- Tuition reimbursement program
