

LICENSED PSYCHOLOGIST – MENTAL HEALTH

Phoenix, AZ

We are Mental Health Center of America, a multi-disciplinary practice helping patients navigate their mental health by using the most advanced therapies available. We are looking for a licensed psychologist with a passion for therapy to join our team. The ideal candidate will have a strong passion for helping patients, working as team, and shaping the future of mental health.

What You'll Do

- Psychotherapy - Through the biopsychosocial lens for patient conceptualization, therapists will provide evidence-based psychotherapy with an emphasis on strengths-based / solution focused care.
- Implementation of patient centered outcomes through the development of peer-support, interpersonal skills, emotional regulation skills, and meaningful activities. Provide support for the patient's strength-based treatment plan, that is designed to meet each individual patient where they are at today, in effort to support a better tomorrow.
- Testing and Assessment – comprehensive intake in effort to effectively measure and assess the functioning of each patient in areas specific to behavior, social skills, mood, affect, and cognitive processing. Administration, interpretation, and documentation of psychodiagnostics assessments (e.g., BASC-3, WAIS-IV, WISC-IV, WIAT-III, Conners, CAARS, CPT-3, MCMI-IV)
- Diagnostic Summary – through the biopsychosocial lens, systematically consider the patients unique factors and their complex interactions for understanding the individual needs of each patient, produce an individualized and comprehensive diagnostic summary for each patient.
- Treatment Plan – Utilizing MHCA's multidisciplinary team, develop a comprehensive individualized strength-based treatment plan, designed to meet each individual where they are at today in effort to support a better tomorrow. Ultimately provide a collaborated, comprehensive, and holistic treatment plan for each individual patient.
- Work closely with clinical director to provide psychological services described above.
- Work closely with a team of interdisciplinary mental health providers.
- Patients are primarily 18-60, but you may be asked to see children and adolescents.
- Work within our EHR system in accordance with MHCA's record keeping guidelines.

What We are Looking For

- Clear passion for helping patients navigate their mental health
- Ability to work well with others
- Ability to provide, receive, and apply supportive feedback
- Desire to work directly with patients in a professional clinical manner in effort to support their individual treatment.
- Support MHCA's patient satisfaction goals as well as division's specific targets.

Must Haves

- Valid and current License issued by the Arizona Board of Psychologist Examiners
- Valid Arizona Fingerprint Clearance Card
- Ability to work regularly scheduled work hours
- Represent MHCA in the health care community and general public in a professional manner

Helps to Have

- Therapy experience in a multidisciplinary health care setting.
- 2-5 years' experience providing psychological services
- 2 -3 references from current and/or previous supervisors
- Ability to adapt responsibilities in support of the clinical development of a growing multidisciplinary mental health clinic.

Compensation and Benefits

- Competitive Salary (\$115,000 +/-)
- Health/Dental/Vision coverage
- 15 paid vacation days per year
- Supportive wellness policy (sick days)
- Relocation assistance
- Scheduled bonus program
